

[**PROTECT** YOUR SUCCESS]

CHIP CONVEYORS | PROTECTIVE MACHINE COVERS | MACHINE ENCLOSURES
CABLE CARRIERS | SAFETY PIT COVERS | WORK TRUCK ROLL-UP DOORS | SERVICE & REPAIR

Safe processes are profitable processes. We make our customers successful by protecting people and machines from the manufacturing environment and waste.

AT HENNIG, YOUR **SUCCESS** ALWAYS COMES FIRST.

When you exist to serve the leaders in manufacturing technology, you become a leader in your own right.

At Hennig, our process starts with an obsession with understanding what it takes to make our customer successful. That passion is the starting point for a comprehensive product portfolio of critical machinery components and complimentary peripherals that enable manufacturers to get the most out of their equipment.

When you work with Hennig, you work with an experienced team of machine-design specialists driven to help you protect your equipment, your people, and your bottom line.

TABLE OF CONTENTS

4	Chip & Coolant Management	8	Safety Pit Covers
5	Protective Machine Covers	8	Work Truck Roll-Up Doors
6	Cable Carriers	9	Service, Repair, Spare Parts
7	Machine Enclosures	10-11	Facilities & Contacts

PROTECT YOUR SUCCESS

Protect Your Success is our pledge to you, and a reminder of exactly what you can expect when you partner with us: brilliant engineering, straight shooting, and a collaborative spirit.

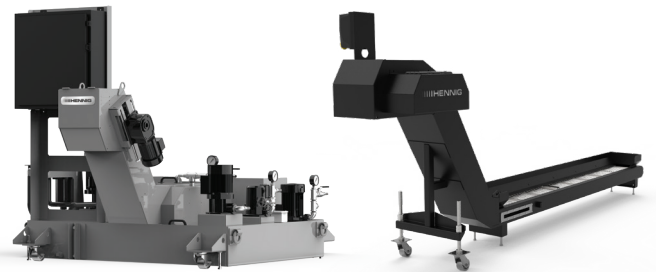

CHIP CONVEYORS & COOLANT MANAGEMENT

Chip conveyors, coolant tanks, and filtration designed for your CNC machine tool.

Our chip conveyors and disc filtration systems set the standard for removing chips and debris from machine coolant, improving the life of precision machines and the accuracy of output. Our chip conveyors and filtration systems outperform expectations, even in the most demanding production environments, and they do it more efficiently and with less maintenance than other conveyor solutions.

Standard Conveyors
Hinge, Scraper, Magnetic, Mobile, Auger
No coolant filtration

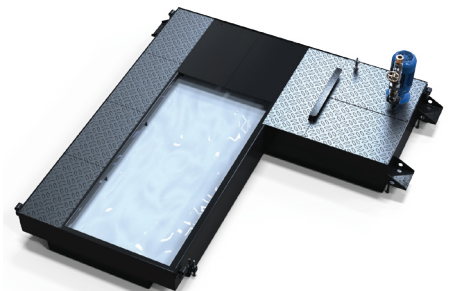

Filtration Systems
Chip-Disc Filtration (CDF), PureFlow
Filtration from 25 to 500 microns nominal

Custom and Turnkey Systems
Integrated and Network Systems
Custom built to suit your application

High Pressure Systems
VariFlow
Dynamically adjust the flow of coolant

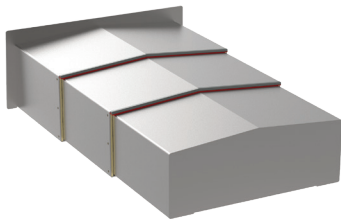

Coolant Tanks
Integrated or Auxiliary
Pumps and filters available

PROTECTIVE MACHINE COVERS

Covers and accessories to keep your employees and equipment safe.

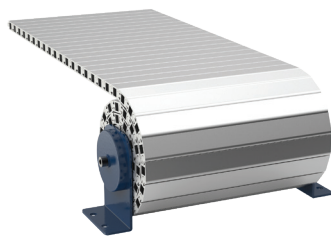

Different machines and environments have varying protection requirements. We have options to cover your assets, no matter what your requirements are. With today's high-speed machines, protective covers must be able to keep up. We continuously improve our products, maintaining economical and optimum solutions to the demands of modern manufacturing capabilities and OSHA regulations.

Telescopic Springs

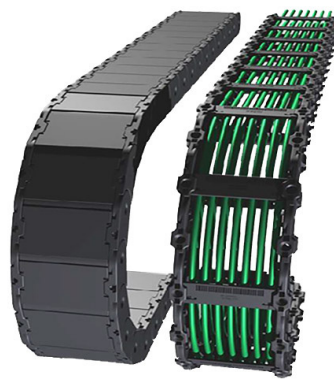

Wiper Systems

CABLE CARRIERS

Protect and guide cables, hoses, and hydraulic and electrical lines on equipment and machinery.

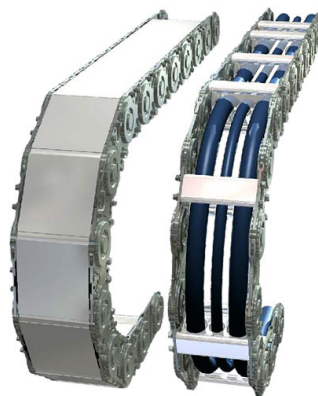

The benefits of a well-installed cable carrier go far beyond aesthetics. With Hennig's range of cable and hose conduits, you'll see less stress on cables and hoses, fewer entanglements, and improved operator safety. A great fit for many industries, including robotics, handling, aerial work platforms, construction, textile, and more.

MACHINE ENCLOSURES

Making good parts often requires dealing with a lot of dirty environments and processes.

Chips, dust, debris, and other particles are part of the job, and if you have massive machines, it's not always contained. With Hennig's line of integrated machine tool enclosures and roof systems, all that grime won't be an issue again. Enjoy a cleaner shop floor and improved aesthetics, a safer workforce, and easy access to the machine.

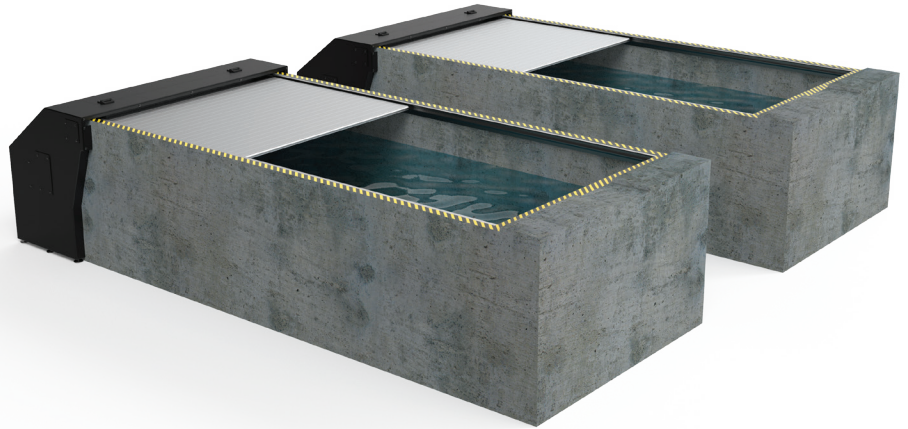

Machine Enclosure With Machine Roof Bellow Covers

SAFETY PIT COVERS

Protect operators from injury and valuable machinery and equipment from the environment.

Safety pit covers offer a removable solution for deep pits built to hold heavy machinery or contain hazardous chemicals, exposed ways, linear guides, and tanks of all sizes. Work with our facility safety experts to design and build custom pit covers with the best materials and features for your specific environment while maintaining a safe and OSHA compliant solution for your shop.

WORK TRUCK ROLL-UP DOORS

A more compact, safer, and durable solution than standard hinge doors.

If you've driven a utility truck before, you know how difficult using a hinged door can be. You've probably prayed that passing cars and trucks don't damage your open door. If a driver isn't paying attention and cuts too close to it, that door may fly off the hinge and shatter their windshield with it. Scary, right? Find out how Hennig is helping to create a safer environment for work truck operators.

SERVICE, REPAIR & SPARE PARTS

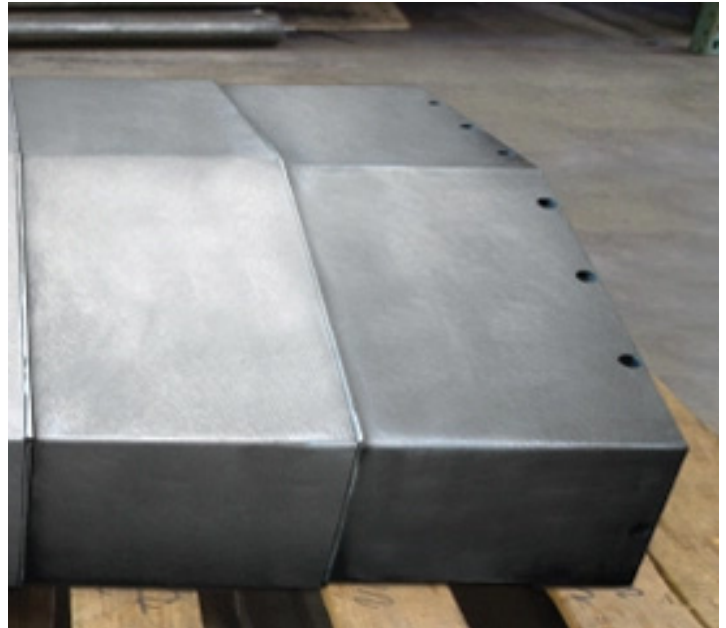

Keep your machine running with industry-leading service, repair, and spare parts.

Enjoy responsive service and repair for all Hennig and non-Hennig machine covers, plus Hennig chip conveyors and other machine tool components that experience wear and tear. It doesn't matter who manufactured the original product. All we know is the end result must absolutely meet our standards for quality and safety.

- Preventive and predictive maintenance
- Way cover diagnostics and troubleshooting
- Extensive replacement spare parts inventory
- On-site repairs, uninstall and reinstall of Hennig chip conveyors and replacement conveyor belts
- On-site repairs of way covers of any make on the market
- Logistics services for minimal downtime
- Chip conveyor and coolant tank retrofits and replacement

PROTECT YOUR SUCCESS

WE'VE GOT YOUR BACK

Hennig Worldwide has been a global leader since 1950, specializing in chip and coolant management, machine protection, and facility safety. We work with a wide variety of manufacturers and other facilities worldwide, helping them create and maintain safe and efficient workplaces. Our commitment to excellence extends beyond our services—we actively contribute to local communities, create regional jobs, and support the global needs of machine tool customers and industrial equipment manufacturers.
